

Generating API KEYS (E-Commerce)

Step 1

Go to www.online.valorpaytech.com and enter your login credentials.

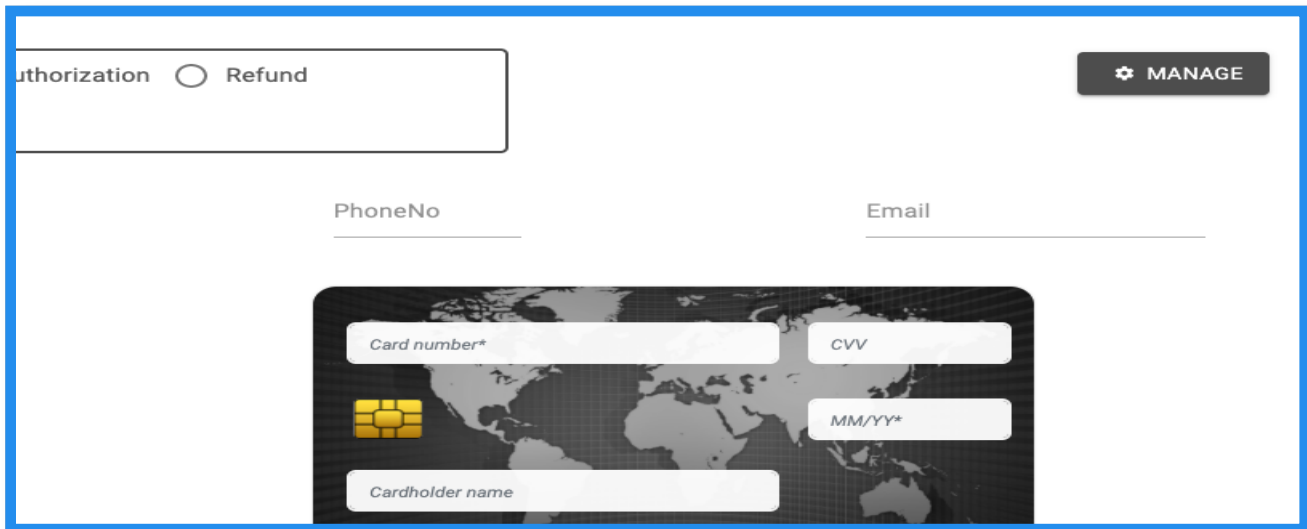

Step 2

Once logged in, click on Virtual Terminal on the sidebar menu.

Additionally, Valor does provide have an app that works with IOS and andriods.

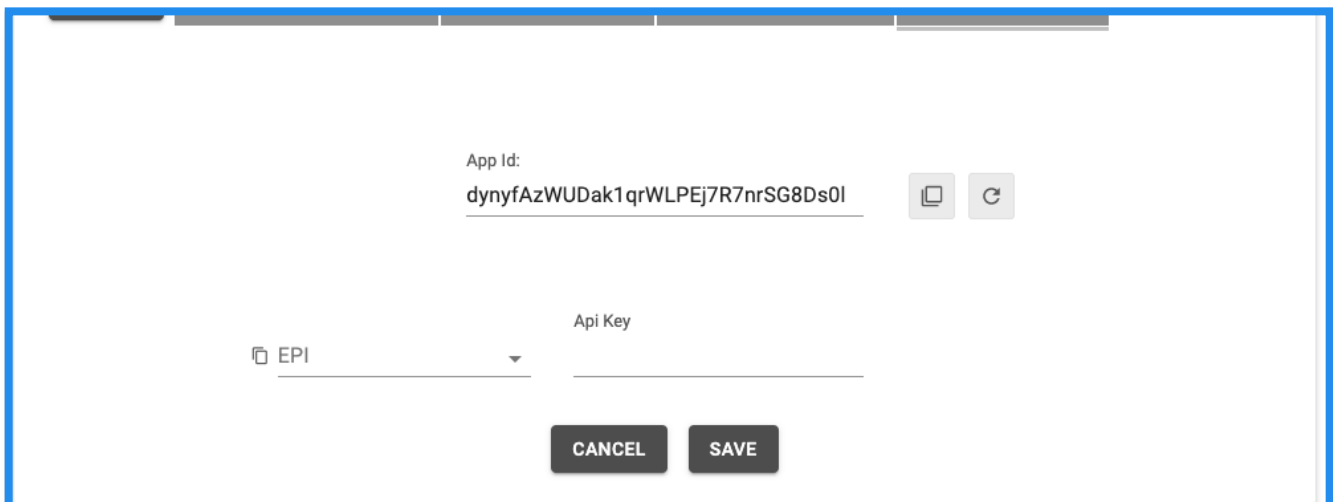

Step 3

The screenshot shows a web interface for managing payment information. At the top left, there are radio buttons for 'Authorization' (selected) and 'Refund'. At the top right, there is a dark button with a gear icon and the text 'MANAGE'. Below these are two input fields labeled 'PhoneNo' and 'Email'. In the center, there is a dark-themed card form with a world map background. The card form contains four input fields: 'Card number*' (with a yellow chip icon on the left), 'CVV', 'MM/YY*', and 'Cardholder name'.

Click on the **Manage** icon on the top right of the screen.

Step 4

The screenshot shows an API configuration interface. It features three main input fields: 'App Id' with the value 'dynyfAzWUDak1qrWLPEj7R7nrSG8Ds0l' and copy/paste icons; 'EPI' with a dropdown menu icon; and 'Api Key'. At the bottom, there are two buttons: 'CANCEL' and 'SAVE'.

Create the API, ID and API Key by clicking the drop down menu in the EPI field, select your EPI, and the API key will automatically be generated. Then copy the APP, API, Key and the EPI click on the **Save** button once the API Keys and EPI have been mapped.
