## Navigate Valor Shield RT

## Step 1

Select Valor Shield RT in the sidebar menu. Here you will see a list of 9 rules available for risk management. You can use this page to set the rules for every merchant in your portal or go to Merchant Management, select the ellipsis (:) in the merchants snapshot to set the rules for each merchant individually.

## Step 2

Merchant Management	International Card Check			:
Transactions Remote Diagnostics	If international cards are used, transactio	If international cards are used, transaction will be <u>Processed</u>		ENABLE DISABLE
Device Management		Rick Management		
∂ Valor Shield RT	Card Phishing	Risk Management		:
Contact Us	Transactions will be declined if dollar a	Maximum transaction count	Status:	ENABLE DISABLE
Support My Setting		20		
D Reports	Refund Score	Minimum transaction amount \$ 50		:
* Downloads	If refund amount is greater than \$100 idecline the transaction.	CANCEL SAVE	nes then Status:	ENABLE DISABLE
	EMV Fallback Limit			:
	If there are more than 2 tickets OR transa	ction amount adding upto \$1000 processed on EMV transact	ion in	

You have the ability to edit the filtering options to fit the needs of each merchant. Select the <u>underlined word</u> within a specific risk snapshot, or **ellipsis (:)** to edit the filter details.

## Step 3

K Merchant Management				
* Transactions	International Card Check		1	
Remote Diagnostics	If international cards are used, transaction will be <b>Processed</b> .	Status:	INABLE DISABLE	
X Device Management	(			
Valor Shield RT	Card Phishing		1	
Contact Us	Transactions will be declined if dollar amount is less than \$50 for 20 times	Status: r		
Support	Linear-neis an ee no-mee a const autour is less oner sam or we mee'	Junus.	COLE CROOLE	
My Setting				
Reports	Refund Score		:	
* Downloads	If refund amount is greater than \$100 OR sale to refund ratio in the last § months is greater than 10 times then decline the transaction.	Status:	ENABLE DISABLE	
	EMV Fallback Limit		I	
	If there are more than 2 tickets OR transaction amount adding upto \$1000 processed on EMV transaction in failback mode in a given day will decline the transaction.	Status: r	NARLE DISARLE	

Lastly, you enable or disable the rule by using the toggle on the right. There is no need to run any downloads once these changes have been made.
