

Replacing the EPI in a Device

Step 1

Open the Favorites Menu (★) located on the bottom left of the home screen.

Step 2

Press the # 6 on the Key Pad. The full EPI will be displayed on the screen. Use the back button (Yellow Arrow) to delete the EPI that is in the device.

Step 3

Once its been deleted, enter the **New EPI** for the device. Make sure the two toggles are enabled for the Parameter and Application download and press the **Green Ok Button**. The download will begin and you can run a new test transaction with your new EPI.
