STEP 3

Use the search bar to search for the EPI you want to **Assign App** for.

Search bar:

<input type="checkbox"/>	Rockets Bag	EPI : 2102557904	VER : 1.2.47	Processor : TSYS SIERRA
	Store : Rockets Bag	DeviceName : Device1	DeviceType : Valor	SerialNo : 125192
	AppDownload : <input type="checkbox"/> ENABLE <input checked="" type="checkbox"/> DISABLE	ParamDownload : <input type="checkbox"/> ENABLE <input checked="" type="checkbox"/> DISABLE	LastTxnDate : 11/16/21 04:59 AM	V# / TID : 887000
	ParamDownloaded : 11/16/21 01:17 AM	Assigned App Version : 1.2.45	LastHeartbeatOn	
	Status : ACTIVE			
	OwnedBy : Karthiso			

<input type="checkbox"/>	KarthiPos	EPI : 2005553330	VER : 1.2.47	Processor : TSYS SIERRA
	Store : KarthiPos	DeviceType : Valor	SerialNo : 118211	
	AppDownload : <input type="checkbox"/> ENABLE <input checked="" type="checkbox"/> DISABLE			

STEP 4

Once your desired device card shows up, click the checkbox at the top left corner of the card.

Rockets Bag

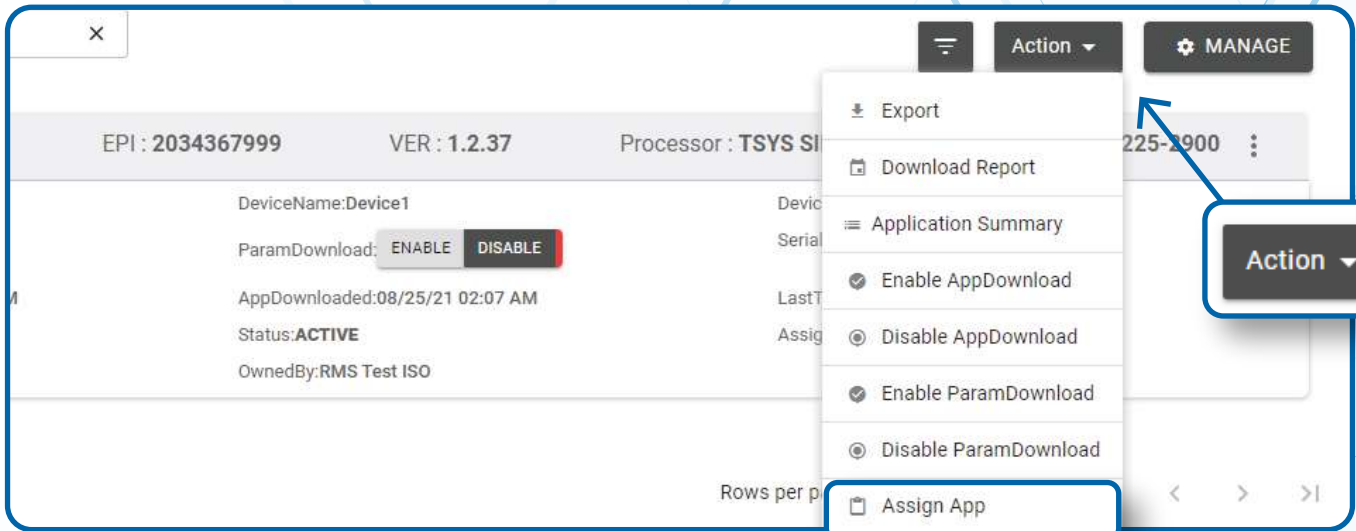

Store : Rockets Bag

AppDownload : ENABLE DISABLE

ParamDownloaded : 11/16/21 01:17 AM

STEP 5

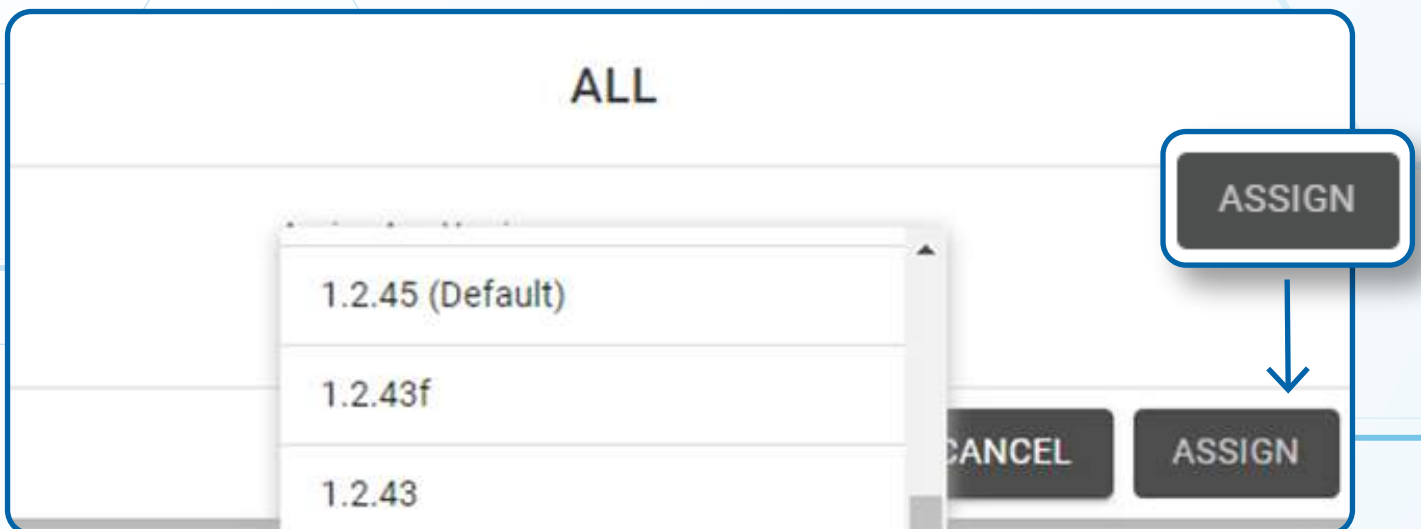

Click the **Action** button at the top right corner of the page and from the drop down list click **Assign App**

The screenshot shows a user interface for managing a device. At the top right, there is a menu with an 'Action' dropdown and a 'MANAGE' button. The 'Action' dropdown is open, showing a list of options: 'Export', 'Download Report', 'Application Summary', 'Enable AppDownload', 'Disable AppDownload', 'Enable ParamDownload', 'Disable ParamDownload', and 'Assign App'. The 'Assign App' option is highlighted with a blue box. In the background, there is a card for a device with the following details: EPI: 2034367999, VER: 1.2.37, Processor: TSYS SI, DeviceName: Device1, ParamDownload: ENABLE/DISABLE, AppDownloaded: 08/25/21 02:07 AM, Status: ACTIVE, and OwnedBy: RMS Test ISO. A blue arrow points from the 'Action' dropdown to the 'Assign App' option.

STEP 6

Proceed to click the dropdown list on the pop up box that appears and select your desired **App version**. Click **Assign**.

The screenshot shows a pop-up dialog box titled 'ALL'. It contains a list of app versions: '1.2.45 (Default)', '1.2.43f', and '1.2.43'. At the bottom of the dialog, there are two buttons: 'CANCEL' and 'ASSIGN'. A blue arrow points from the 'ASSIGN' button in the dialog to the 'ASSIGN' button in the background interface.

An app download will cause a terminal to batch out transactions, please consult with the merchant about how this process works before proceeding

STEP 7

Perform a **Parameter download** on the terminal by hitting **★ < 6 < OK** to update the terminal's software to the app version you have assigned it.
