

# Setting up your password

## Step 1

Once your account has been created in the portal, you will be sent an **SMS** and an **Email** providing you with an activation link. Click on the activation link to set up your password in the portal.

Set your password

Password

Confirm Password

\*Password should be atleast 6 character long. It should have one uppercase, one lower case and one numeric digit

CONFIRM

**VALOR**  
PAYTECH

## Step 2

Create a **password** that satisfies the **password policy** of six characters, one uppercase letter, one lowercase letter and one numeric digit.

Set your password

Password   
Test1234

Confirm Password   
Test1234

\*Password should be atleast 6 character long. It should have one uppercase, one lower case and one numeric digit

I have read the [Privacy Policy](#).

CONFIRM

**VALOR**  
PAYTECH

## Step 3

---

Enter your password in both the **Password** and **Confirm Password** fields and click confirm.

The screenshot shows a 'Set your password' form. It has two input fields: 'Password' and 'Confirm Password', both with masked characters and eye icons. Below the fields is a red error message: '\*Password should be atleast 6 character long. It should have one uppercase, one lower case and one numeric digit'. There is a checked checkbox for 'I have read the [Privacy Policy](#)' and a 'CONFIRM' button. The VALOR PAYTECH logo is visible on the right side of the form.

## Step 4

---

A successful confirmation notification will pop up at the top right corner of the portal page and you will be forwarded to the login page to login to your account.
