Device Management

Step 3

Select the **Vertical Ellipsis** on the device associated with the **Merchant** you would like to edit. Select **Edit Parameters**.

The screenshot shows a list of three devices for the merchant 'Lauren's Salon'. The first device has EPI: 2123000743, VER: 1.0.8, and Processor: FDR OMAHA. The second device has EPI: 2127942667, VER: N/A, and Processor: TSYS SIERRA. The third device has EPI: 2229930789, VER: N/A, and Processor: TSYS SIERRA. A vertical ellipsis menu is open for the first device, showing options: Edit Parameters, View HeartBeat, View Pinpad Log, View audit log, and Mark as Favorite. A callout box highlights the 'Edit Parameters' option.

Step 4

Navigate to **Receipt** section. Toggle **Yes** next to **SMS-Receipt** option.

The screenshot shows the 'RECEIPT' configuration page. It has two columns of settings. The 'SMS-RECEIPT' option is highlighted with a callout box, and the 'YES' toggle is selected. Other options include 'SETTLEMENT REPORT DETAILED (PRINT)', 'EMAIL SETTLEMENT REPORT', 'PAPER RECEIPT', 'FORCE ON SCREEN SIGNATURE', 'RECEIPT OPTIONS MERCHANT', 'VALID ADDRESS', 'HIDE RECEIPT OPTION', 'FORCED SIGNATURE LINE', and 'RECEIPT OPTIONS CUSTOMER PROMPT'.

Step 5

Select **Save** at the bottom of the screen.

A screenshot of a settings menu with four expandable sections: RECEIPT, TERMINAL & TRANSACTION, VALUE ADDED SERVICES, and SUPPORT. At the bottom right, there are two buttons: CLEAR and SAVE. The SAVE button is highlighted with a blue border.

Step 6

A **ParamDownload** will now be available for the device. Please perform **Package Download** on the **Terminal** to Enable **SMS-Receipt** by selecting **★ Button**, then **6. Download Package**, followed by **OK**.
