Device Management

Step 3

Select the **Vertical Ellipsis** on the device associated with the **Merchant** you would like to edit. Select **Edit Parameters**.

The screenshot shows a list of three devices for the merchant 'Lauren's Salon'. The first device has EPI: 2123000743, VER: 1.0.8, and Processor: FDR OMAHA. The second device has EPI: 2127942667, VER: N/A, and Processor: TSYS SIERRA. The third device has EPI: 2229930789, VER: N/A, and Processor: TSYS SIERRA. A vertical ellipsis menu is open for the first device, showing options: Edit Parameters, View HeartBeat, View Pinpad Log, View audit log, and Mark as Favorite. The 'Edit Parameters' option is highlighted with a blue box and an arrow.

Step 4

Navigate to **Terminal & Transaction** section. Toggle **QSR (Receipt & Signature Are Not Required)** to **Yes**. Scroll down and select **Save**.

The screenshot shows the 'TERMINAL & TRANSACTION' settings page. The 'AVS' dropdown is set to 'NONE'. The 'CASH BACK ON DEBIT CARDS' toggle is set to 'YES', with a 'DEBIT MAX CASHBACK' of '\$100'. The 'EBT CASHBACK' toggle is set to 'NO'. The 'BATCH OUT' toggle is set to 'AUTO', with a 'SETTLEMENT TIME (EST)' of '10:00 PM'. The 'QSR (RECEIPT & SIGNATURE ARE NOT REQUIRED)' toggle is set to 'YES', with a 'MAX AMOUNT' of '\$250.00'. The 'QSR' toggle is highlighted with a blue box.

Step 5

A **ParamDownload** will now be available for the device. Please perform a **Package Download** on the **Terminal to Enable QSR** by selecting **★ Button**, then **6. Download Package**, then **OK**.
