ValorPay

Installation Guide

GENERATING API KEYS

OBJECTIVE

To perform any request on Valor virtual terminal, one should have the following credentials:

APP ID

- APP ID represents the merchant API; A merchant can create an APP ID using the Valor portal

APP KEY

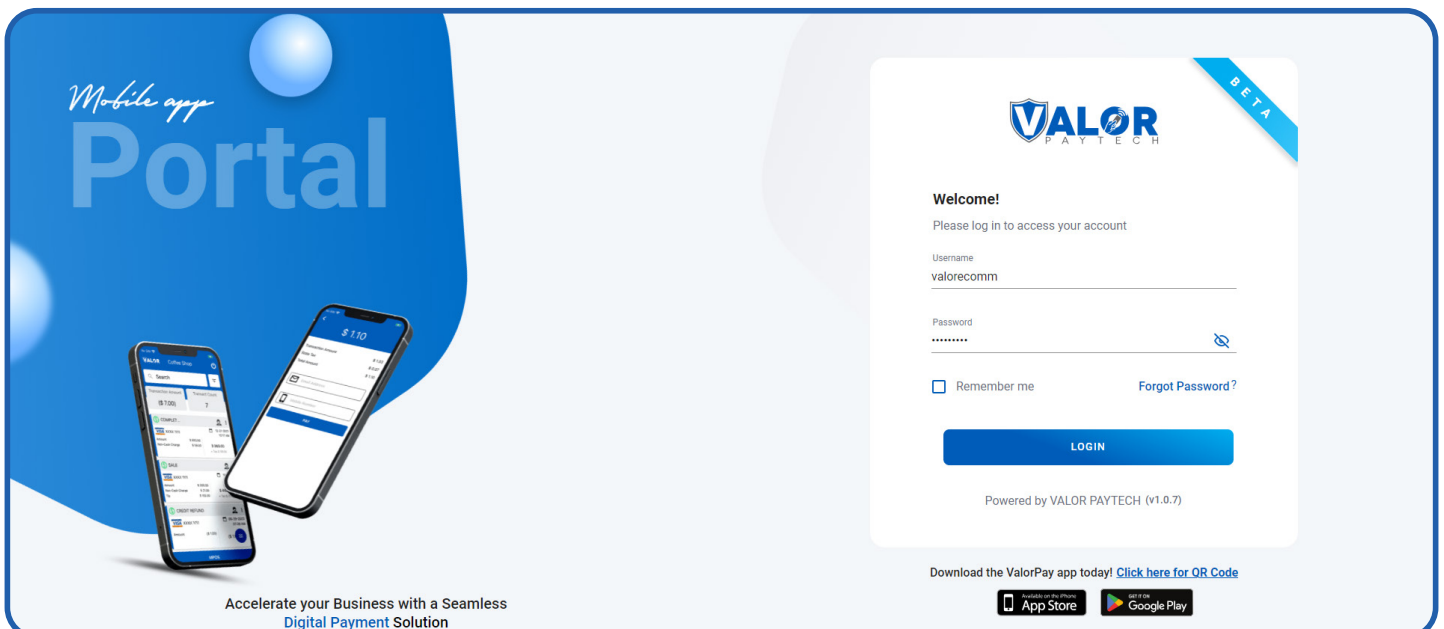

- APP KEY represents the EPI of the merchant, technically a merchant can have only one APP ID but based on the count of the API KEY, a merchant can have several API KEYS
- Merchant can create their own API KEY using the Valor portal

EPI

- Basically **EPI** is an **End Point Identifier**, Identify the device on valor infrastructure, any devices including virtual terminal will be identified as an EPI, typically its a 10 digit number start with 2.

STEPS TO CREATE APP ID AND APP KEY

STEP 1 - Login to The Valor Portal

Mobile app
Portal
