

ValorPay

Payments that just work

ValorPay mobile app is built to keep payments fast, secure, and stress-free. Whether it's mobile payments, QR code transactions, or PayNow links, our advanced solutions give merchants the tools they need to keep business moving.

What makes ValorPay stand out?

Smart transaction dashboard

Merchants gain access to a centralized dashboard displaying total transactions by day, week, or month. The transaction overview provides key details, including net amount, refunds, tips, pending e-invoices and so on.

Seamless product selection

The built-in Menu & Inventory feature allows merchants to select products and complete transactions efficiently, streamlining the checkout process.

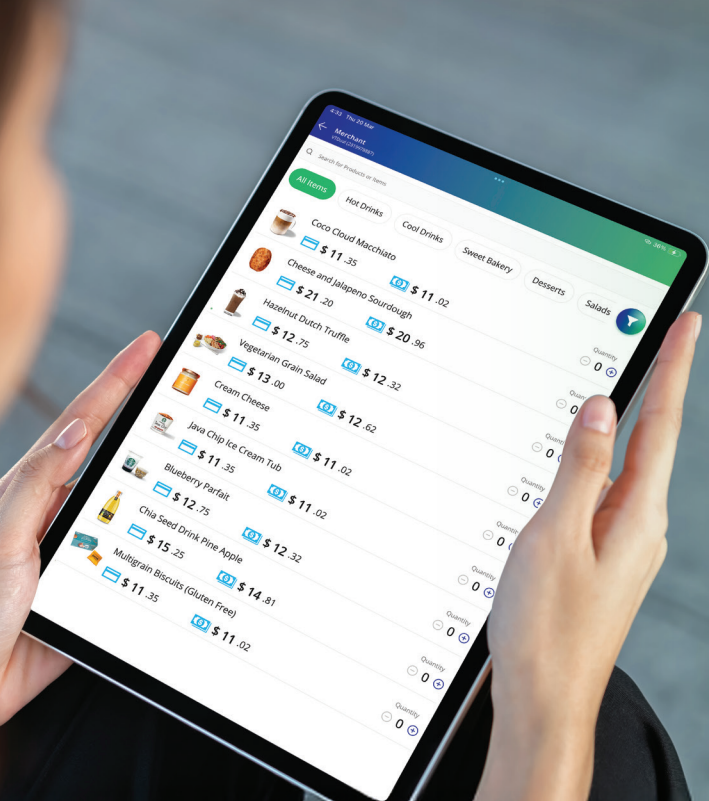

Say goodbye to declines

Failed transactions? No thanks. ValorPay app minimizes disruptions and ensures smooth, secure payments every time.

Keep customers happy (and coming back)

Fewer payment headaches mean stronger customer relationships. ValorPay helps merchants retain their customers by making transactions effortless.

ValorPay is available for both
Android and iOS.
