

intuit quickbooks®

Valor and QuickBooks unite seamlessly, empowering your business with precision and efficiency - a winning equation for success.

Financial precision with Valor + QuickBooks

Seamless workflow integration

Valor and QuickBooks work together to streamline your workflow. With our seamless integration, transactions sync automatically, eliminating manual bookkeeping and reducing errors. This means less time spent on financial management and more time growing your business.

Quick and accurate financial management

Businesses can generate invoices effortlessly and keep payment records up-to-date. Every transaction is recorded automatically, ensuring financial accuracy and reducing discrepancies.

Efficient customer & inventory management

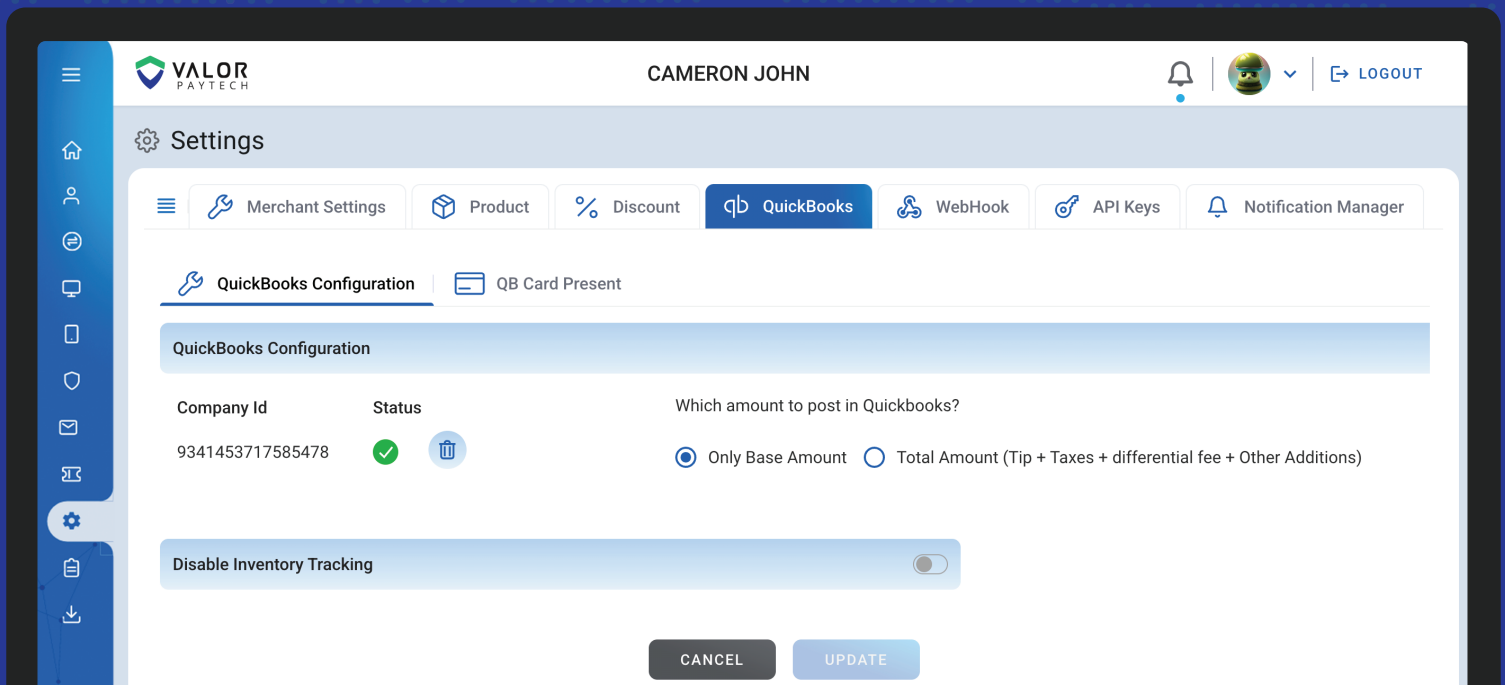

Valor and QuickBooks sync customer and inventory data effortlessly, keeping records consistent across platforms. This two-way sync ensures customer details, product listings, and transaction histories stay updated in real-time.

Smooth in-person transactions

Valor PayTech enables seamless QuickBooks integration with POS terminals for card-present transactions. This feature provides merchants with enhanced invoice tracking and automated transaction syncing for in-person payments.

Valor + QuickBooks: Effortless integration, maximum impact.

Simplicity achieved

Two-way customer creation

Two-way inventory creation
