Valor CRM

From Onboarding to
Payouts - Managed in One Place

Why choose Valor CRM?

Seamless integration with payment providers

Direct integration with leading providers enables real-time transactions—no third-party tools or manual entry needed. Built-in automation ensures smooth, secure payments so businesses can focus on growth.

Effortless agent management & payouts

Schedule, calculate commissions, and process payouts automatically. A single dashboard makes tracking performance and paying agents fast, accurate, and hassle-free.

Automated underwriting & onboarding

Predefined risk assessments speed up reviews, delivering faster, consistent approvals. Merchants get onboarded and start processing payments without delays.

Comprehensive merchant insights

Real-time analytics reveal trends, transaction history, and performance metrics—helping ISOs anticipate needs, strengthen relationships, and drive growth.

What's included?

Seamless onboarding

Residual management

Role-based access control

Support management

ValorPay

Endless possibilities with one app!

What makes ValorPay stand out?

Payments, but smarter

No more frustrating checkout experiences. The ValorPay mobile app simplifies every transaction, whether it's tap, scan, or click.

Real-time insights

Because guessing is for board games, not business. Merchants get instant transaction updates, virtual terminal access, and detailed payment data—right when they need it.

Say goodbye to declines

Failed transactions? No thanks. ValorPay app minimizes disruptions and ensures smooth, secure payments every time.

Keep customers happy (and coming back)

Fewer payment headaches mean stronger customer relationships. ValorPay helps merchants retain their customers by making transactions effortless.

Why choose ValorPay?

Instant transaction visibility

Virtual terminal access

E-invoicing & digital signatures

SMS & email invoicing

Custom alerts

Ironclad security

Android & iOS compatibility

Bilingual support

Semi-Integration for PC POS Software

Bringing Speed, Accuracy &
Simplicity to your POS!

Benefits of Semi-Integration

Seamless Real-Time Transaction Exchange

Valor supports real-time transaction exchange using JSON-formatted payloads, ensuring that every transaction is captured accurately and instantly. This reduces errors, improves reconciliation, and keeps your third-party systems fully in sync with your Valor POS.

Cross-Platform Developer Support

Integration works across multiple programming languages, with sample code available in Python, Node.js, and C. This enables your technical team or ISV partners to implement Semi-Integration quickly and efficiently, regardless of the tech stack.

Secure & Structured Data Transmission

Valor Semi-Integration ensures data is transmitted securely using framed messages, maintaining transaction integrity and protecting sensitive information during every step of the exchange.

Configurable with Minimal Setup

All settings are managed through the Valor Portal, making configuration straightforward and fast. Simply enable the required integration flags, download parameters, and your system is ready to communicate with Valor terminals.

Easily manage and select your preferred communication method directly in the Valor Portal.

The Power of Customer Engagement

Increase Merchant Revenue | Decrease Attrition

Analyze your customers' spending habits and send targeted marketing campaigns, all within the Valor Portal.

Customer Retention

Protect Your Reputation

Using Valor's survey tool with **Engage My Customer™** empowers merchants to instantly respond to negative feedback, stopping bad reviews before they occur.

Win Back Lost Customers

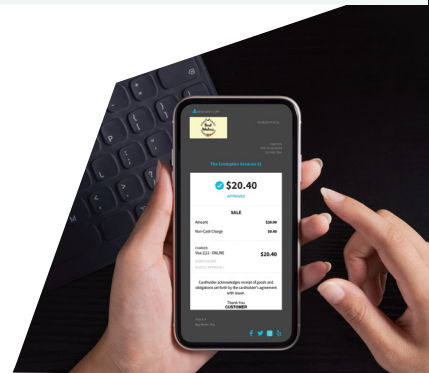

Send targeted marketing campaigns to customers who have stopped visiting your business for a specified amount of time and win them back.

Digital Receipt Marketing

By encouraging customers to “go green” and opt for an SMS receipt, merchants not only help protect our environment they

- Collect customer's contact information to use for future marketing purposes.
- Can add powerful marketing messages and clickable links to the digital receipt.

Target VIP & Large Spenders

Retain VIP Customers

Customers that frequently visit your business should never be lost. Stay in communication with your VIP Customers and they will never leave.

Market to High Spenders

In most businesses, 20% of your customers account for 80% of your revenue. Losing one is not an option. Stay in communication and keep them spending.

“Thank you for being a valued VIP customer.”

When do my customers spend?

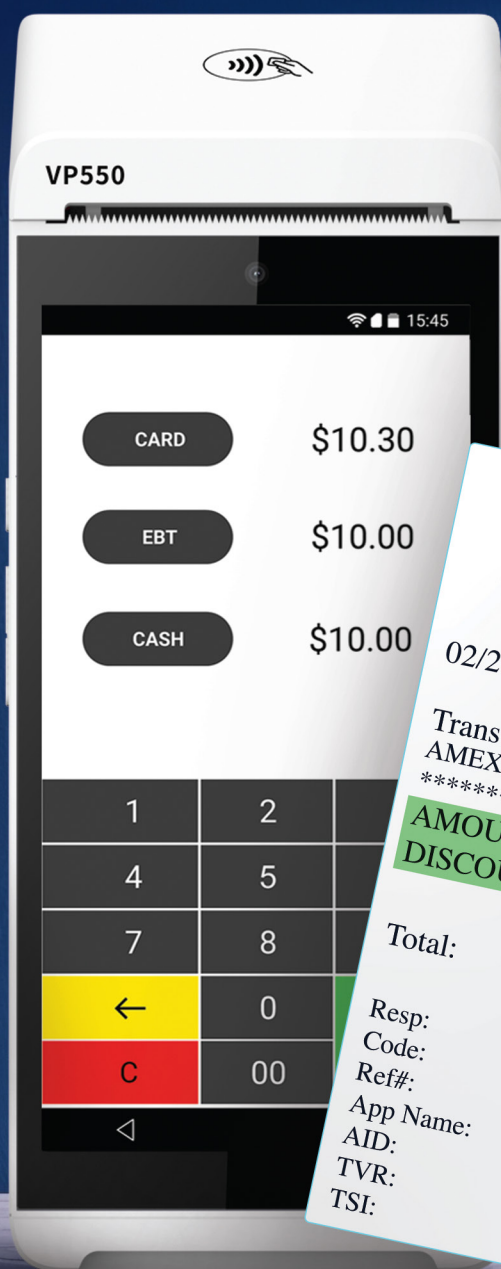

Understanding when your customers spend money is a valuable statistic. Prepare your business for the busy times and send marketing messages to increase traffic during slow times.

Discover the Power of Dual Pricing!

Clearly display card vs. cash price at time of sale

Start saving today with Dual Pricing

Dual Pricing on payment terminals is a transparent way to offer different transaction amounts to consumers paying with cash versus cards.

Make the switch today

Securely Store and Manage Your Payment Information

The Vault

The Vault will make transactions more accessible and secure for our merchants by providing a safe and compliant way to store and access their customers' card information.

Advanced Security

Robust encryption and advanced security measures keep your payment data safe.

Multi-Platform Compatibility

Access your payment information securely from any device.

Convenient Payment Storage

Easily store and access your card information for seamless transactions.

Streamlined Management

Effortlessly add, remove, and update payment methods within The Vault.

Why Choose The Vault?

Unparalleled Security

Protect your sensitive payment information with state-of-the-art security features, providing peace of mind with every transaction.

Simplified Payment Process

Enjoy the convenience of storing your payment details in one secure location, reducing the need for repetitive data entry.

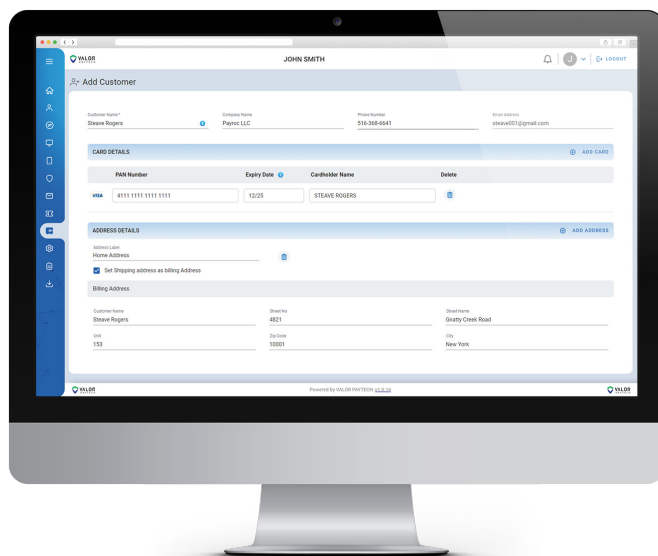

Enhanced Efficiency

Save time and effort with quick access to your stored payment methods, making online purchases faster and more streamlined.

Flexibility and Accessibility

Access your stored payment information across multiple platforms, allowing for convenient payments wherever you go.

Where Innovation & Simplification Meet

One-click Software Integration

Cloud Detect

Once Valor Connect has been enabled for a device in the Valor portal, our cloud detection technology will easily locate and display the enabled devices to select for integration.

Menu & Inventory Sync

By syncing the ISV's inventory with Valor's Omni channel cloud platform, all of the devices connected to the cloud including e-commerce sites, POS devices, and Virtual Terminal will update the inventory in real-time as transactions take place.

Instant cloud integration is just a click away

Instant Integration

ISOs and merchants can select any supported POS solution and instantly integrate it with any Valor device.

Remote Setup

Combining our cloud detection software with our instant integration capability allows for the full setup to be completed remotely, eliminating the cost of deploying expensive labor for onsite integration.

VT to Card Present

In addition to ISV integrations, Valor Connect will allow a Virtual Terminal transaction (CNP) to be rerouted to a Valor terminal for a card present transaction.

Supported Platforms

Experience Automatic Card Updates

Reduce Card Declines.

Increase customer loyalty and reduce loss by avoiding expired cards.

Accurate customer payment card data is critical for merchants accepting recurring payments. With the automatic card information update feature of Valor Updater, say goodbye to declined transactions and provide a seamless payment experience for Visa®, Mastercard®, American Express®, and Discover® cardholders.

Outdated information causes declined transactions and added expenses. It leads to payment switches and service cancellations, prompting updates from cardholders. Valor Updater tackles this, automating customer card information updates.

Increase Revenue

Enhance Customer Retention

Reduce Customer Service Costs

Save on Authorization Fees

The Advantages of Valor Updater

Seamless Service

Revamp your customer relationships effortlessly by providing a seamless, uninterrupted service experience with Valor Updater.

Transparent Customer Updates

Building trust in customer relationships hinges on transparency. Valor Updater ensures that your customers are aware of their account or payment information updates.

Minimized Decline Disruptions

Offer a final adieu to declined transactions by ensuring the recurring customer card information is up-to-date and minimizes card declines.

Customer Retention

Empower merchants for enhanced customer retention with Valor Updater, preventing card declines through quick updates.
